

# 在windows x64上安装CRFPP

1. 在\CRF++-0.58\python\中，运行下面两个语句

```
1 python setup.py build
2 python setup.py install
```

```
...\CRF++-0.58\python>python setup.py build
running build
running build_py
running build_ext
...\CRF++-0.58\python>python setup.py install
running install
running build
running build_py
running build_ext
running install_lib
running install_egg_info
Removing ...Anaconda\Lib\site-packages\mecab_python-0.0.0-py3.7.egg-info
Writing ...Anaconda\Lib\site-packages\mecab_python-0.0.0-py3.7.egg-info
```

说明： `python setup.py install` 有可能会遇到权限不足的问题, 需要换成管理员模式安装

2. 验证是否安装成功，如果导入后没有报错，则安装成功

```
Type "help", "copyright", "credits" or "license" for more information
>>> import CRFPP
>>>
```
